# 1 Identification

- · Product identifier
- · Trade name: Foamsulate<sup>TM</sup> 220 Series Resin (Reg/Summer)
- $\cdot$  Details of the supplier of the safety data sheet
- Manufacturer/Supplier: Accella Polyurethane Systems, LLC 1255 Kennestone Circle, Suite 200 Marietta, GA 30066 USA

www.premiumspray.com

- · Information department: EH&S Department
- Emergency telephone number: During normal operating hours: (770) 528-9556 ChemTrec: (800) 424-9300

# 2 Hazard(s) identification

· Classification of the substance or mixture

Health hazard

STOT SE 2 H371 May cause damage to organs.

STOT RE 2 H373 May cause damage to organs through prolonged or repeated exposure.

Corrosion

Eye Dam. 1 H318 Causes serious eye damage.

Skin Irrit. 2 H315 Causes skin irritation.

· Label elements

• GHS label elements The product is classified and labeled according to the Globally Harmonized System (GHS).

Safety Data Sheet

acc. to OSHA HCS

• Hazard pictograms

· Signal word Danger

Hazard-determining components of labeling: Polyol(s) N,N-bis[3-(dimethylamino)propyl]-N',N'-dimethylpropane-1,3-diamine 2-dimethylaminoethanol
Hazard statements Causes skin irritation. Causes serious eye damage.

## 4 First-aid measures

#### · Description of first aid measures

• General information:

Immediately remove any clothing soiled by the product.

Remove breathing apparatus only after contaminated clothing have been completely removed.

In case of irregular breathing or respiratory arrest provide artificial respiration.

First Aid responders should pay attention to self-protection and use the recommended protective clothing. If potential for exposure exists refer to Section 8 for specific personal protective quipment.

- After inhalation:
- Supply fresh air or oxygen; call for doctor.

In case of unconsciousness place patient stably in side position for transportation.

• After skin contact:

Immediately wash with water and soap and rinse thoroughly.

Suitable emergency safety shower should be immediately available.

· After eye contact:

Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

• After swallowing:

Do not induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person.

· Information for doctor:

Treatment of exposure should be directed at the control of symptoms and the clinical condition of the patient.

- *Most important symptoms and effects, both acute and delayed* No further relevant information available.
- · Indication of any immediate medical attention and special treatment needed

No further relevant information available.

# 5 Fire-fighting measures

- · Extinguishing media
- Suitable extinguishing agents:
- *CO2, extinguishing powder or water spray. Fight larger fires with water spray. Use fire fighting measures that suit the environment.*

(Contd. on page 4)

Printing date 12/14/2015

Reviewed on 01/26/2015

Trade name: Foamsulate<sup>™</sup> 220 Series Resin (Reg/Summer)

(Contd. of page 3)

• For safety reasons unsuitable extinguishing agents: Do not use direct water stream. May spread fire. • Special hazards arising from the substance or mixture

Safety Data Sheet

acc. to OSHA HCS

- During heating or in case of fire poisonous gases are produced.
- There are no known unusual fire or expolsion hazards.

## · Advice for firefighters

- · Protective equipment:
- Mouth respiratory protective device.

Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. PVC boots, gloves, safety helmet and protective clothing should be worn.

#### · Additional information

Keep people away. Isolate fire and deny unnecessary entry. Use water spray to cool fire exposed containers. Fight fire from protected location or safe distance. Move container(s) from fire area if this is possible without hazard. Burning liquids may be moved by flushing with water to protect personnel and minimize property damage. Contain fire water run-off if possible. Fire water run-off if not contained, may cause environmental damage.

### 6 Accidental release measures

### · Personal precautions, protective equipment and emergency procedures

Wear protective equipment. Keep unprotected persons away.

Isolate area. Keep unnecessary and unprotected personnel from entering the area. Spilled material may cause slipping hazard. Refer to Section 7, Handling, for additional precautionary measures. Use appropriate safety equipment. For additional information, refer to Section 8, Exposure Controls and Personal Protection.

### • Environmental precautions:

Inform respective authorities in case of seepage into water course or sewage system.

Prevent from entering into soil or ditches. Inform the relevant authorities if the product has caused environmental pollution.

Do not allow to enter sewers/ surface or ground water.

• Methods and material for containment and cleaning up:

Ensure adequate ventilation.

Contain spilled material if possible. Absorb with materials such as: Dirt, Sand, Sawdust. Collect in suitable and properly labeled containers. Wash the spill site with water. See Section 13, Disposal Considerations, for additional information.

· Reference to other sections

See Section 7 for information on safe handling.

- See Section 8 for information on personal protection equipment.
- See Section 13 for disposal information.

# 7 Handling and storage

#### · Handling:

- · Precautions for safe handling
- Ensure good ventilation/exhaustion at the workplace.
- Open and handle receptacle with care.

Do not swallow. Wash thoroughly after handling. Keep container closed. See Section 8, Exposure Controls and Personal Protection.

• Information about protection against explosions and fires: Keep ignition sources away - Do not smoke.

Keep respiratory protective device available.

Trade name: Foamsulate<sup>™</sup> 220 Series Resin (Reg/Summer)

(Contd. of page 4)

- Conditions for safe storage, including any incompatibilities
- · Storage:
- Requirements to be met by storerooms and receptacles: No special requirements.
- · Information about storage in one common storage facility: Not required.
- *Further information about storage conditions: Keep receptacle tightly sealed.*
- Storage Period: 6 months
- Storage Temp: 15-35℃
- Specific end use(s) See the technical data sheet on this product for further information.

## 8 Exposure controls/personal protection

#### · Control parameters

· Components with limit values that require monitoring at the workplace:

940912-28-7 Polyether Polyol

*PPM Ceiling limit value: .3 mg/m<sup>3</sup>* 

111-46-6 diethylene glycol

WEEL Long-term value: 10 mg/m<sup>3</sup>

#### 78-40-0 triethyl phosphate

WEEL Long-term value: 7.45 mg/m<sup>3</sup>

#### 56-81-5 glycerol

### PEL Long-term value: 15\* 5\*\* mg/m<sup>3</sup> mist; \*total dust \*\*respirable fraction

*TLV* Long-term value: 10 mg/m<sup>3</sup> *TLV* withdrawn-insufficient data human occup. exp.

#### 460-73-1 1,1,1,3,3-Pentafluoropropane

TWA Long-term value: 1644 mg/m<sup>3</sup>

300 ppm

• Additional information: The lists that were valid during the creation were used as basis.

· Exposure controls

- · Personal protective equipment:
- General protective and hygienic measures:

Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work.

Store protective clothing separately.

Avoid contact with the eyes and skin.

#### • Breathing equipment:

In case of brief exposure at low atmospheric levels use an approved air-purifying respiratory equiped with an organic vapor sorbent and a particle filter. In case of intensive or longer exposure use a positive pressure air-supplying respirator (air line or self-contained breathing apparatus).

### · Protection of hands:

The workplace factors such as, but not limited to: Other chemicals which may be handled, physical requirements (cut/puncture protection, dexterity, thermal protection), potential body reactions to glove materials, as well as the instructions/specifications provided by the glove supplier.

Safety Data Sheet

acc. to OSHA HCS

#### · Material of gloves

Use chemical resistant gloves classified under Standard EN374: Protective gloves against chemicals and microorganisms. Examples of preferred glove barrier materials include: Butyl rubber, Polyethylene, EVAL, Neoprene, Nitrile, Viton. When prolonged or frequently repeated contact may occur, a glove with a protection class of 5 or higher is recommended.

#### · Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

### • Eye protection:

Tightly sealed chemical goggles consistent with EN 166 or equivalent. Wear a face-shield which allows use of chemical goggles, or wear full-face respirator to protect face and eyes when there is any likelyhood of splashes.

#### · Body protection:

Personal protective clothing for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

## 10 Stability and reactivity

• *Reactivity* No further relevant information available.

• *Chemical stability This product is stable at recommended storage conditions (See Section 7).* 

• Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.

· Possibility of hazardous reactions No dangerous reactions known.

· Conditions to avoid Avoid moisture to protect product quality.

• Incompatible materials:

Avoid contact with oxidizing materials. Avoid contact with: Strong acids. Strong bases. Avoid unintended contact with isocyanates. The reaction of polyols and isocyanates generate heat.

• Hazardous decomposition products: CO and CO2

- · Aquatic toxicity: No further relevant information available.
- · Persistence and degradability No further relevant information available.
- · Behavior in environmental systems:
- · Bioaccumulative potential No further relevant information available.
- *Mobility in soil* No further relevant information available.
- Additional ecological information:
- · General notes:
- Water hazard class 1 (Self-assessment): slightly hazardous for water

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

- · Results of PBT and vPvB assessment
- *PBT:* Not applicable.
- **vPvB:** Not applicable.
- · Other adverse effects No further relevant information available.

# 13 Disposal considerations

- · Waste treatment methods
- · Recommendation:

Waste Disposal: Incinerate in a licensed facility. Do not discharge into waterways or sewer systems.

Container Disposal: Steel drums must be emptied (as defined by RCRA, Section 261.7 or state regulations that may be more stringent) and can be sent to a licensed drum reconditioner for reuse, a scrap metal dealer, or an approved landfill. Drums destined for a scrap dealer or landfill must be punctured or crushed to prevent reuse.

- · Uncleaned packagings:
- *Recommendation:* Disposal must be made according to official regulations.
